D BUGBEE,

may 27 No 2 Kenduskeag Bridge.

Dr. S. O. Richardson's

CELEBRATED SHERRY WINE

BITTERS.

THE Proprietor of this Medicine offers to the Public the result of an extensive practice and thorough investigation of the laws which govern the human system.

It cannot be denied, by those who have become acquainted with the singular virtues of these Bitters that they possess a pre-eminence over all others now in use, for the diseases which they profess to cure

It is a well known fact, that most diseases arise from a derangement of the Stomach and Bowels in youthful, adult and declining life

The stomach crammed with every dish,
A tomb of roast and boiled and flesh and fish;
Where bile and wind and phlegm and acid, jar,
And all the man is one intestine war!

The extensive sympathies which subsist between these and every other part of the living body is the foundation of numerous diseases of all kinds,—Irregular Appetite, Languor, Drowsiness Wandering Pains, Headache Lowness of Spirits &c

And these, in their turn, give birth to Dyspepsia, Palpitation of the Heart, Shortness of Breath, Jaundice, Piles Fevers Inflamatory Humors, Coughs, and a host of diseases which embitter life and poison all sources of enjoyment

The distinguished character of these Bitters is most striking, their operation, being more or less powerful according to the violence of the disease When used in appropriate quantity, in cases of slight derangement of the Stomach and Bowels caused by carelessness or a slight bilious difficulty and the like, where nature needs assistance to prevent more serious consequences they will be accordingly felt

On the contrary, in obstinate cases, they frequently operate more powerfully, causing sickness and vomitions daily, until the circulating fluid becomes purified, This accomplished, they act on the system in consonance with our food, each receiving mutual assistance in all the construction as restored to a state of health and renewed vigor.

☞ For sale, wholesale and retail, at the Doctor's Office, No 15 Hanover Street, Boston, and at Bangor by G W Ladd, A P Guild, Potter & Brown, Hall & Young and N E Folsom; and all the Agents throughout the State 3taw&w4m

GILT and Mahogany framed Looking Glasses

from 25 to $16. S A HYDE.

NOTICE TO PROPRIETORS OF CERTAIN LANDS IN THE STATE OF MAINE.

THE Legislature of the Commonwealth of Massachusetts by a Resolve passed 1st April 1836, directed the Land Agent of said Commonwealth, to give notice to sundry proprietors of lands in the State of Maine, who were required by a resolve passed in the aforesaid denomination of conveyance from the Commonwealth to place a certain number of families on their respective tracts and requiring them to furnish evidence of the fulfillment of said condition, or pay the sum of $30 for each family deficient on the first day of June 1840 or the lands would be declared forfeited

Persons to said Resolve notice was duly after given to all the proprietors of lands subject to said condition, most of whom have complied therewith and removed the incumbrance The proprietors however of the following townships, or tracts have not responded to the notice neither have they (so far as is known to this office) settled for or complied with said condition viz In the County of Cumberland—a gore of land lying between the towns of Raymond and Gustield, formerly conveyed to Samuel Phillips

County of Franklin—Township Letter D conveyed to Jonathan Gardner, and number two and number three in the third range

County of Oxford—Letter A No 1, now the town of Riley, and A, No 3, now the town of Newry

County of Somerset—A half township No 2, 1st Range north of Bingham's Kennebec purchase granted in the Trustees of Sandwich Academy

County of Penobscot—Township No 3 on the west side of Penobscot River granted to the Maine Literary and Theological Institution now the town of Argyle, South half of township No 3 4th range North of the Waldo patent granted to C Brown and others and the north half of township No 5 3th range granted to the Trustees of Warren Academy.

County of Washington—Township No 3 1st range west of Passamaquoddy River granted to Samuel Hinckley, No 4 4th range, ditto granted to Williams college now called Vanceborough and a half township on the Eastern boundary line granted to the Trustees of Limerick Academy now called New Limerick

The undersigned is required by a late resolve of the Legislature of Massachusetts passed the 24th day of March last again to give notice to delinquent proprietors and to take such measures as he may deem to be necessary to recover to the Commonwealth the possession of any of the above named townships or tracts of land from such proprietors as shall have failed on the first day of December next of complying with the requisition of the Resolve of the first day of April last

EXCELLENT WATER POWER FOR MILLS AND MANUFACTURING PURPOSES.

THE excellent water power at the outlet of the Great East Pond in the town of Newport County of Penobscot and State of Maine is now offered for sale to such parts as purchasers may desire This water power combines three essential advantages, an unfailing supply of water the pond covering a large portion of the town and raised with little expense or damage, freedom from all risk as to freshets and is never frozen at the situated in the heart of rapidly increasing and thriving agricultural county and is only twenty three miles distant from the city of Bangor

There is now situated on this outlet a Tannery do Iron Founders and Machine Shop, and a Saw Mill and a Grist Mill

The owners wish to dispose of a privilege sufficient for driving a large amount of machinery and also of several acres of land adjoining, or of portions of the same to be used for various manufacturing purposes

It is believed that the advantages here offered are rarely equalled and never excelled, and that the terms of sale will be such as to be worthy the attention of capitalists and others who may wish to engage in manufactures

Notice to Milkowners.

THE undersigned having purchased one half of the right of making vending and using Mill's CENTRIFUGAL PATENT CAST IRON WATER WHEELS for the United States have at present fitted up patterns for casting two of the different sizes of these Wheels which are particularly adapted to the various kinds of water for which they may be wanted

Upwards of two hundred of the Wheels have been put in operation in this State with the best of satisfaction to the purchasers

A model of these Wheels was tested last June Mass the past summer by a Board of Examiners composed of Ithamar A Beard of Lowell Esq Lyon Esq of Lowell and F A Straw Esq of Manchester and it was afterwards placed in the hall of the Mechanics Fair at their last exhibition in Boston and received the only diploma awarded on water wheels

We annex an extract from the certificate of F A Straw, Esq one of the board of examiners giving a statement of the experiments made with the model at Lowell which establishes the great superiority of the Valentine Wheel over any of the kind in use

MANCHESTER July 11 1844

Dear Sir—I send you the results of several experiments made at Lowell the other day with your Model of Valentine's Patent Reacting Wheel I consider the trial to have been a very fair one and the results are certainly very creditable to your wheel, I think they prove conclusively that your wheel is at least 30 per cent stronger than any of the Jubron Reaction Wheels now in general use

The coefficient of effect, or per centage of power derived from well constructed Breast or Overshot Wheels acting under favorable circumstances is usually reckoned at 66 per cent and that of Undershot, Jet and Reacting Wheels at 33 per cent, but in nine cases out of ten in practice I think it will be found that the power derived from Breast Wheels will not exceed 60 per cent of the power applied or the power derived from Jubron or Reacting Wheels 25 per cent of the power applied, indeed I know of well constructed Jubron Wheels acting apparently under favorable circumstances that do not give a coefficient of effect equal to 20 per cent

With the results of your wheel before me I have no hesitation in saying as a result that may be obtained from any wheel similar to the model, well constructed and acting under favorable circumstances

Experiments Nos 1 2 and 3, were made without back water Ex No 1 400 lbs lifted 9½ feet—fall 5 06 feet—effect 42 8 10 per cent 2 400 lbs lifted 9½ feet—fall 5 08 ft—effect 41 9 10 per cent 3 400 lbs lifted 9 12 ft—fall 5 7 feet—effect 42 5 10 per cent

The mean of experiments No 1 2 and 3 would be 42 4 10 per cent without the friction in all an average of about 53 per cent which may be considered as the effect of your wheel when working free from back water

In experiments Nos 4, 5 and 6 the wheel was immersed in back water, but was very evidently overloaded

In experiments Nos 7 8 and 9 wheel was immersed in back water

Ex No 7 295 lbs lifted 9 1 2 feet high—fall 4 005 ft—effect 47 3-10 per cent 8 296 lbs lifted 9 1 2 ft—fall 4 021 ft—effect 58 5 10 per cent. 9 296 lbs lifted 9½ feet—all 4 01 feet—effect 48 1 10 per cent

The mean of experiments 7, 8 and 9, would be 49 6 10 per cent besides the friction, in all an average of about 53 per cent, which may be considered as the effect of your wheel when working just immersed in back water

F A STRAW, *Civil Engineer of the Manchester Water Power Co'*

All persons wishing to purchase Mill Wheels and other fixtures, can have their orders executed promptly and on the most reasonable terms

PALES MEDICINE.

PALES Cathartic and Vegetable Purgative Lozenges are the best and decidedly the most popular Cathartic ever before offered to the public for adults but for children it is entirely safe in all countries and climates and in every condition of life They are entirely vegetable and may be unreservedly delighted in they exercise upon the system but on the contrary feeding while operating they strengthen the system more perfectly than any other purgative Their magic like operation surprises the most eminent physicians and they are rapidly taking the place of all other purgative compounds Every traveler should carry them, every family should keep them and every man woman and child should take them

PALES WORM LOZENGES

Are a sure remedy and children love them they act like a charm in removing the symptoms, starting in sleep grating the teeth paleness about the mouth and nose sickness at stomach precarious appetite swelled bowels and general fever, the child falls into a quiet sleep, the worms are stupefied and expelled in every instance, as far as heard from the patient is entirely cured

PALES COUGH LOZENGES

For coughs colds bronchitis and incipient consumption, whooping cough and croup the most happy effects is obtained in a few moments, the symptoms disappear and the disease is at once broken up A single trial is sufficient to satisfy the most skeptical

PALES DYSENTERY LOZENGES

Cures dysentery diarrhoea and all bowel complaints of adults or children Pay particular attention to the directions which accom any each box and they are not known to fail Price 25 cents

PALES CAMPHOR LOZENGES

For common and sick headache, also mania, epilepsy melancholy, hysteria St Vitus Dance and all other cases of langor and oppression of the vital powers they are perfectly safe for women or children in all conditions.

PALES SYRIAN HAIR TONIC

Is now so extensively known that comment is useless We can say however, among thousands who have purchased it in this and other countries, none have complained but on the contrary express their wonder and admiration on beholding its effects

CLEAR OUT YOUR RATS

The gnawing and antics of these destructive creatures can be banished forever in your house and store if you will procure a box of the genuine

Madagascar Rat Exterminator,

and use it according to directions

You cannot depend upon the above medicines unless obtained of the proprietor J J PALES 96 Commercial st, Boston, to avoid counterfeits the Agent has a certificate with the written signature of J J Pales, M D Member Mass Med Soc and Boston Med Ass Dr Pales medicines are sold by the following Agents

Bangor, Aug 13, 1845

For Two Days Only

NEW YORK CIRCUS!
OR AMERICAN OLYMPIAD!
Of Messrs Rockwell & Stone.

The refined, Grecian Athletic and Equestrian exhibitions of the above extensive establishment will begin on the Afternoons and Evenings

THURSDAY and FRIDAY 4th and 5th of September.

At Depot on Oak street, in rear of Penobscot Exchange

The proprietors presume that the popularity of a long and matchless collection of steeds, are known to the citizens of this community to merit as a Curiosity in a neighboring city was a mark of great fortune and the favored comment of every Press. The following are some of the principal Performers connected with this Magnificent Company

MONSIEUR CASSIMER!

The great Drummer of the World! and styled the Child! who made our chief drummer of the Line Army the first drummer of Europe! He has astonished many thousands both in Europe and in all the principal cities of North America! New York! Boston! and is highly valued in the new pieces EVENING DRUMS! at great variety and elegant manner

The names of the principal are—OSCAR STONE the fearless Equestrian of the world who stands alone at the head! His profession and its praises need not only by the critical public, but by all the great Stars of his peculiar style that ever produced. The wonderful achievements of this great artiste have gained for him a name never to be erased from the memory of a generous public. G WARGENT the famed Shaksperian Jester. The performance of this distinguished Artiste is a pleasing and rewarding picture to see that he is not only a finished horseman but a great dramatic talent. His Richard Ballstaff Shylock and Richard III, criticism W W HOBBS—His Equestrian and vaulter who has become the admiration of the many thousands who have witnessed his daring and successful feat of backward summerset from feet to feet on a horse at full speed is the only person who has been successful in this great feat

L GOSSIN, The Clown, surnamed the Joe of America is not only the best Clown in the world but has scarcely his equal as a general performer

Miss GOSSIN, the very beautiful and accomplished equestrian, D MINNICH a finished Equestrian artist, C CHAMPION the celebrated double leaper and double somersetter

VICTOR HIQUET the unrivalled Rider

MASTER STEPHENS the equestrian prodigy

LORENZO HUBBELL the American Boy

The NUBIAN MELODISTS a Band of Refined Ethiopian Singers—a mighty host never before equalled in New England

The other attractions mentioned in the programmes and posters of the Circus will be performed by a new and sublime Spanish spectacle, called and feel gorgeously caparisoned called

THE ANDALUSIAN ENTRY!

A grand and magnetic piece has been produced with great care and expense

Doors open at 2 and 6½ o'clock Performance to commence at 2½ and 7 o'clock

Prices of admission—Boxes 25 cents Pit 12½ cents Children half price to Boxes, no half price to Pit

NOTICE.—For particulars in the performance please see large bills programmes, and poems issued in this place

The Cavalcade will parade in the town on the morning, and make a Grand Procession with the principal streets accompanied by the celebrated Brass Band in their splendid carriage drawn by six beautiful Arabian Horses driven in hand d&w aug 28.

NOTICE TO VOTERS.

THE legal Voters of the City of Bangor are notified that a list of the Voters in the several Wards in said City, are posted up in the Avenue of the City Hall, where it may be examined at all times

Those persons who live in different wards from those in which their names appear and those whose names have been omitted by the Assessors, are informed that the Board of Aldermen will be in session previous to the election to correct the list at which meeting due notice will be given

Patent Water Wheels.

THE undersigned, Agents for the manufacture and sale of VALENTINE'S PATENT WATER WHEELS are prepared with *patterns* for casting all the different sizes and forms of wheels required for the various conditions in which they are used

The superiority of these Wheels may now be considered as fully established, the evidence of which may be seen in the fact, that hundreds of them have been put into successful operation in this State within two years past and also in the fact that a diploma was awarded for them by the managers of the Mechanic's Fair in Boston last year, and further that many careful experiments were made by scientific Engineers at Lowell last season, the result of which as stated in a communication by one of them, prove conclusively that the Valentine Wheel is at least 20 per cent stronger than any of the Pub or Reacting Wheels now in general use

The undersigned are prepared to furnish the above Wheels, together with all other kinds of mill work and machinery used in this section of the country upon the most reasonable terms

VOTES.

PRINTED VOTES for the County of Penobscot are now ready for delivery at this office.—Will some energetic Whig in each town take it upon himself to see that his town is supplied. Let this be done and then let every Whig be sure and vote on the day of election

A word to the Workingmen of Maine.

We desire to call the attention of the workingmen of Maine to the position of parties at the present time so far as respects professions and practices. The loco party professes to entertain a high regard for the great laboring masses and strongly urges all such to vote against the whigs as against their social and personal enemies. But the loco party invariably practices upon the rule that all offices in the government deemed of any consequence shall be filled by Lawyers, men of the upper state of society, who alone are deemed worthy of public confidence. The whig party on the contrary, always considering all professions on a level and that all men are equally interested in maintaining a good government, make no extravagant professions of special regard for any particular class, being willing rather to be judged by their acts. The whig party have recently in full accordance with their liberal principles returned two mechanics to Congress, and they have not been disappointed in their expectations regarding the ability of these men. The whig party now offer the State a mechanic as a candidate for Governor. In pursuing this course the whigs of Maine have not only given the strongest illustration of their principles, but helped to bring out and advance one of the great designs of our republican institutions—to dignify and ennoble humanity, and to teach the high and the low their equality and make each and all see their responsibilities to the country for the proper use of the talents entrusted to their hands. They have shown by this course that with them, worth—intellect—integrity are the true passwords to the honors of the public.

The loco party require the laboring men in their ranks to obey the dictation of the leaders and vote for the professional schemers who make a trade of politics. In accordance with this they are called upon to vote for Hugh J Anderson for Governor. He is a scheming, dorupt, cold hearted, cunning demagogue, who considers the mass of his party as made to bear him up even though he force the rowel of his spurs never so deeply into their gorded sides. He is one of a clique of the same class and they are all zealous for a chance to ride. The industrial classes may vote for such men year after year and each year make their own condition worse, for what is now urged by the leaders as a necessary policy will by and by be claimed as a right.

The whig party have nominated an honest and industrious mechanic, not because he is a rare production, and a curiosity among the mechanics of Maine, for he is not, but because circumstances have brought him more prominently than others before the public, and because they wish all professions to share equally the honors of office. Now there are mechanics in the loco ranks fully qualified to discharge the duties of a Governor, but there they will be required to remain all their lives so long as demagogue leaders, partially employed in sharp practice as a profession, can get elected.

There is now a favorable opportunity for the industrial classes, the mechanics and farmers of Maine, by the easy process of depositing a ballot on the eighth of September next for Freeman H. Morse, to upset the aristocratic professional exclusiveness in the loco party, and at the same time confer an honor upon the State. An opportunity is thus offered to them of showing that the carpenter, the shoemaker, or the farmer may have as well digested views of public policy as the lawyer or the merchant, and that the journeyman is quite as competent to explain his ideas of right and wrong as is the employer.

We trust this opportunity will be improved, and that, at length all parties will be compelled to imitate the practice of the whig party, and that scheming demagogues and corrupt political leaders will meet a rebuke from the people such as they richly deserve. Remember, laborers of Maine, that the white man's lot that "Comes down as still as snow flakes fall upon the sod"

...ists the potent power of effecting these great results in a single day? Remember the eighth of September and vote for Freeman H. Morse.

Crawling Off.

The Bath Enquirer, a few weeks since, undertook to read a portion of its party a lecture on their political professions and duties, and very justly spoke of one branch of its party as the silk stockinged, ruffle-shirted, golden-fingered counterfeit, which assumes the *name* of democracy without the *principle*. Our acquaintance with the conductors of the loco press in this State led us at once to the conclusion that the article, so pointed, so truthful and so rare, must have been penned under some special influence of a personal character. This opinion is now confirmed, since, in the last number of that paper, we see the old loco leaven of *policy* at work, and the dupe is trying to crawl off from his own statements. Party policy tempts him to draw a veil over the truth he had uttered, and to stultify himself by such an application of his remarks as to divest them of all force, pith or point, and of so implve him in the nudes of untruth. Our benevolence is vividly awakened in behalf of the man of the Enquirer. He catches glimpses of the truth occasionally regarding the composition of his own party—their idle pretensions—their inconsistency of practice with profession—and for once, at least, dared give utterance to the truth. But, alas, so wedded is he to party—a slave for the spoils—that, at the bidding of the "golden-fingered counterfeit," he meekly crawls off—shuts his eyes to the truth, and asks for pardon, by an assinine declaration that he didn't mean what he said. What a heroic reformer!

☞ The New York Express says, in reference to the active warlike movements in Louisiana and Texas, that of the President is not hopelessly committed to acts of folly and madness, and means really to carry on a war against Mexico, independently of Congress, or any constitutional power conferred upon him, we entreat him, in behalf of the commerce of the country, to make known what his intentions are. We are in a fair way to find ourselves in the midst of a war without a moment's official warning that war is at hand.

Our ships may be beset by pirates, and our citizens by troops, while least suspecting that danger is at hand. We hope that the executive, even in the midst of his high handed and unnecessary usurpations, will condescend to pause long enough at least to give a word of warning to our merchants and sailors.

☞ We would call attention to the advertisement of James Boyd & Sons of Boston, which may be found in our columns. We recently visited the manufacturing establishment of the Messrs Boyd, and the excellent stock they use, the good workmen they employ, and the care taken to have every thing in the first order, allow why it is that they have so generally received the public approbation. Their hose of various kinds for fire engines has long been celebrated, and in this department they intend no one shall surpass or equal them. They have orders from Quebec and all parts of the United States for hose, and none who apply to them are disappointed in obtaining a good article. They were employed, while we were there, in manufacturing equipments for a regiment destined for Texas—these equipments were really intended for actual service, and are both beautiful and durable—indeed all their work, and they carry on various branches, is of the first quality, and disposed of at fair prices. They manage to secure more than one call from their customers.

☞ We publish to day a communication of Capt Howes of the steamboat Charter Oak, together with the certificate of Mr Dyer of Portland, the legal examiner of Steamboats under the act of Congress. These documents cannot but be satisfactory to the public as to the soundness of the Charter Oak. We recently made a passage in this boat, feeling at the time the fullest safety in her strength and all her appointments. Capt Howes has for a long course of years been eminently successful as commander of a steamboat on this line and we have no thought that he will ever consent to hazzard his well earned reputation by betraying the public into the support of an unseaworthy or unsound boat.

The Eighth of September.

Let every citizen of Maine bear in mind that the annual election for State officers occurs on the eighth of September. Let every whig especially make such preparations as to be at home on that day, if they are now absent, or intend to be absent at about that time. A little seasonable arrangement of business will enable every man to be at the polls, and every vote is important. It is the over vote that many think is unimportant, that has effected many of the most important events in our history.

☞ We see it stated, says the Philadelphia U S Gazette, though we do not know on what grounds, that the President of the United States has determined, should Mexico declare war against this government, to meet the question of privateering boldly, that is, should any person not belonging to Mexico, attempt aggression on the commerce of the United States, with letters of marque from the Mexican government, they will, if they fall into the hands of the authorities of the United States, be treated as pirates.

☞ A locomotive has just been built, at Boston, to run over the Long Island Railroad, which weighs seventeen tons, and cost seven thousand five hundred dollars. It is calculated it will draw an ordinary train forty miles per hour, and, if "cast iron rails of metal" will run sixty miles per hour.

The Northampton Courier states that Mr J D Brown, of Hatfield, has sixty acres of broom corn, under a high state of cultivation, at Fredericksburg, Virginia. It is now being cut and the brush is to be manufactured into brooms by him at Baltimore.

☞ The Washingtonian Journal states that Hon Shepard Cary is delivering temperance lectures in Boston. Is it so?

☞ Signor Vitali last sale in this city will take place this evening at the Grey's Hall on Broadstreet. There are many pretty and useful things etc and the whole will be disposed of.

☞ Gen Neal Dow, of Portland, temperance lecturer from New York will shortly visit our city, for the purpose of aiding the good cause.

Mesmerism.

The lectures of Dr Dods have been well attended—very well, considering the many attractions afforded by the exercises of commencement week, and the numerous lectures &c, now given in our city. His experiments have been quite satisfactory to those who have faith in Mesmerism wholly and essence though not calculated to satisfy those who are sceptical. They neither prove or disprove mesmerism—since it is *possible* that there may be "collusion" if he would take his 'subject' from the audience, and not a stupid operate upon one whom they are kept in supposes is an adept at "playing the second fiddle," whatever there is of science would make a better impression upon believers, and better satisfy. A SCEPTIC.

☞ The Lowell Courier states that John H Warland, Esq former editor of the Claremont Eagle, is about to take the editorial charge of the Manchester (N H) Amoskeag. We predict for Mr Warland a career of usefulness and success. He is one of the best writers in the country.

☞ The two companies of U S troops from Hamilton, Me and quartered at Fort Warren, have received orders immediately to join the forces in Mexico.

☞ Jack Frost made his first appearance last night. He left his mark upon much of the tender vegetation. For two mornings past we have found a fire in the office quite comfortable.

☞ The Bath Enquirer states that rum and riot bear sway in that town. This is bad news.

☞ The annual meeting of the American Board of Commissioners for Foreign Missions is to be held in Brooklyn this year, and commences on Tuesday the 9th of September.

The Next Congress.

The Journal of Commerce publishes a list of Senators and Representatives in the next Congress, so far as elections have been held. There are at present 50 members in the U S Senate of whom 24 are Whigs, and 26 Democrats. Four vacancies, from the States of Mississippi, Virginia, Indiana and Tennessee, remain to be filled. It is probable that the next Senate will stand 24 Whig to 30 Democrat, not including the two Senators from Texas, who will scarcely take their seats before the close of the session.

In the House of Representatives, which will consist of 223 members, of 210 already chosen, 76 are Whigs 5 Natives and 128 Democrats.—This will gain of eight members to the Whigs, and a loss of fourteen to the Democrats, since the last Congress. Of the 14 vacancies 6 are from Maryland, 4 from Mississippi, and one each from Illinois, Massachusetts, Maine and New Hampshire.

☞ The N O Tropic of the 16th, has the following paragraph

"*United States and Mexico.* Since our paper was last issued, this city has been the scene of intense excitement. *The war spirit is up*, and Old Hickory stands ready to aid the government whenever her gallant services are demanded. In the event of a war with Mexico, (which God forbid) all hearts, and that feeling will show itself in a spontaneous rally to the government standard. In peace, party lines may divide us, but in war, the voice of party will be hushed, and no cause will be recognized except the cause of the country. We yet hope that Mexico will be wise.

Steamboat Engineers.

A correspondent of the National Intelligencer who designs himself to be a native of the Valley of the Mississippi, in a communication on the subject of steamboat disasters and the protection of life, declares that where there is one engineer competent to the proper discharge of his trust, there are twenty who are totally unfit for it. He says—"The course of graduation, as we have seen at times on board the steamers of the Valley, is frequently as follows. An active shrewd deck hand attracts notice by his attention to duty. He is steady, and is elevated to the rank of second mate, mate, or carpenter, if he has any knowledge of rough jobbing, or perhaps his taste or wish for higher wages inclines him toward the machinery. He gains the good will of the engineer, or his incompetent assistant, and tinkers about the engine. When some what advanced in knowledge, the assistant loans him with "*a half watch charge* of the engine, while he takes a gentlemanly *siesta* or spins a yarn with some *confrere* on the guard—in a short time he (the sub) probably excels his teacher, and supplants him, or, upon his recommendation, *takes charge* as first engineer upon some second or third rate boat, which, having been run out of the trade in which she originally ran, becomes a packet on some interior route, where, upon her appearance, she is hailed and puffed as the A N J steamer———, built expressly for this trade, or refitted, and officered and manned by the very boat man out of New Orleans. This is shameful mockery, and an outrageous imposition from the start, but as a game that is played so frequently that the very people whose lives are endangered by it laugh and jest about it."

A Shameful Fraud!

A list is going the rounds of forty questions propounded to practical manufacturers and others by Mr Secretary Walker of the Treasury Department. It would seem from what is given to the public, that this circular is sent out to Manufacturers, &c *indiscriminately*, with the view of collecting testimony, from practical men of all sorts of opinions, to be submitted to Congress for the information of that body. But we are assured, by a gentleman who has recently been engaged in reading and preparing information from the manufacturers of Newark, Paterson, &c that these Circulars are mainly transmitted to Postmasters, and by them handed out to those Manufacturers only who are likely to return such answers as Mr Walker desires! Of One Hundred Whig Manufacturers one in Maine has recently visited, *not one* has received one of Mr Walker's unconstitutional Circulars, while the *only six* Loco Foco Manufacturers he has found (only three of them American) have each been favored with the Secretary's inquiries, and will doubtless answer them as per margin.

Of course, we shall have a great body of Locofoco statistics, made to order, showing that the Tariff ought to be upset by the next Congress. Let them come! All we ask is that the public shall understand how they are got together.—N Y Tribune.

Commerce of the United States.

The value of imports into the United States in the year ending the 30th of June last, as ascertained at the Treasury Department, according to a correspondent of the New York Courier & Enquirer, was $119,531,606, of which sum subject to duty, $76,486,836, free of duty $23,025,770.

The amount of exports in the same period was $117,291,622, of which $92,914,765 consisted of domestic produce, and $14,977,457 foreign merchandize. Excess of imports over exports $11,662,984. Among the imports was included $3,052,233 in specie, and among the exports $6,477,651 in specie.

The imports during the three months ending on the 30th of June, amounted to $28,631,816, and the exports during the same period to $30,586,551. Excess of exports during these three months, $1,954,746!

Two old bachelors, but guess me if I can find the stairs,' as the drunken fellow said when he walked round the bed post.

BY TODAY'S MAIL

The "Washington Union" the government organ at Washington, commenting on the Mexican news, says

"The public journals are filled with the replies forwarded by the different departments to the circular addressed on the 16th of July by the Minister of War, Conde, to the prefects of the departments. These functionaries, profess the greatest zeal and activity in seconding the views of government. Besides these replies,—which may be considered as obligatory,) the government is receiving offers of all kinds from private individuals. Thus Colonel Jose Marmaduke Arundo proffers his services and those of his sons and his wealth, for the defence of the country.

We notice, likewise, those of Manuel Jose de Ajuria, Jose Mam Hatuo Ciraco, Vasquez, and other persons of note. The war, therefore, it seems, is a popular measure. In conformity to the law of the 4th of June, the corps to be styled 'The Defenders of Independence and the Laws is being rapidly formed. It is a kind of national guard, and includes all citizens, save the *employees* of the government, editors of newspapers, and persons engaged in ecclesiastical occupations. The officers are to be appointed by the President on the recommendation of the governors of departments. They are to serve one year, unless renominated.

This corps (of which the expenses will be paid by the Government will be subject to the orders of the local authorities, for the purpose of maintaining public tranquility, and enabling troops to march to the defence of the territory of the Republic.

This certainly looks as if Mexico was in earnest in its determination for war, and the Union has recently changed it tone altogether as to the intentions of the Mexican Government.

Proceedings in Kentucky.

The senior Editor of the Louisville Journal, who was present the proceedings relative to the removal of Mr Clay a press, says—

"The president read the names of the committee of sixty, who were taken indiscriminately from the two political parties and forthwith the crowd adjourned to C M Clay's office, filling up the whole street for a considerable distance. The doors and windows and blinds of the office were all closed. In a few minutes the committee of sixty arrived, and, on their approaching the door a pledge was proffered them in the name and behalf of C M Clay, that if they would not molest his property, his paper should be immediately discontinued. A member of the committee replied that the proposition came too late, and that they must do the work for which they were appointed. The types according to the orders of C M Clay were then given up to the mob and the members of the committee, as their names were successively called by the chairman entered the office and threw the press in pieces and concluded. The committee, after having possession of the office, sent for some of the master printers of the city, and handed over to them the broken types and the press, with the request that they would put the latter in as good order as they found it
